Permanent Makeup

EYELINER HEALING STAGE

DAY 1-2

Swelling, redness, and possible sensitivity

DAY 11-15

Scabbing mostly gone, colour continues to fade slightly

DAY 3-5

Swelling reduces, eyelids may feel tight, and color starts to soften

3-4 WEEKS

Fully healed, color stabilizer, and final results appear

DAY 6-10

Scabs or flakes may form, I will not pick or rub it

AFTER TOUCH-UP

I love my eyeliner, it is beautiful!
